Despre produs

The 1020 Series HSS-Co Heavy Duty Straight Shank Jobber Drills from Swiss Tech are engineered for enhanced performance and durability. With up to 8% cobalt content, these drills enable higher operating speeds without compromising tool life, ensuring consistent reliability. This advanced design not only extends the tool's longevity but also boosts productivity, making it an ideal choice for demanding drilling applications. Features and Benefits

- o Made with 8% cobalt optimal performance and durability at high speeds
- o 135° point angle for precise hole making and efficient cutting
- o Effectively cuts through metals including resistant steels and bronze
- o Extended lifespan on cutting edge, required less sharpening over time
- o Excellent corrosion resistance extends the lifespan of the tool

Standards

- o Manufactured DIN 338 RN
- o Point manufactured to DIN 1412C
- o BS 338 Typical Applications
- o Cutting and drilling o Hard metals o Stainless steel o Bronze

Notes

- o Available in sizes 1-14mm
